SUMMARY*

Innovative and detail-oriented Software Engineer with 1.5 years of experience specializing in MEAN/MERN stack development. Proficient in building scalable web applications using MongoDB, Sql Redshift, Express.js, Angular, React, and Node.js. Demonstrates strong problem-solving skills and a passion for delivering high-quality code in fast-paced environments.

TECHNICAL SKILLS: Node Js, Angular, React js, Express Js, Redshift, Sql, MongoDB, Blockchain, Firebase, Javascript, Typescript, CSS, SaaS, OOPs, Algorithms, HTML

PROFESSIONAL EXPERIENCE

Skugal Technologies Pvt Ltd   **Noida Uttar Pradesh,India**
Software Development Engineer   June 2023– Present

Working to build and deliver highly efficient Products on time, I wrote apis using industry best practices to reduce the response time by 15-20%. And created a good fast and reliable frontend using angular.
Project 1 - Cloudnito.com
- Created and user friendly and Enhanced app for tracking and managing AWS Expenses for EC2 and S2 services..
- Designed and executed a frontend architecture with Angular that included full authentication and seamless API integration; solution resulted in a 30% reduction in page load times and increased user satisfaction.
- Support management, Intercom and Graph integrations

Project 2 - Erkmo Analytics
- An ultimate app for analyzing web traffic of your application.
- Data analytics by creating a tracker and installing into a website to get the real time data of each activity using http responses.
- Storing and managing large data with Amazon redshift SQL database.
- Managing authentication and authstate using google Firebase.

Prima Felicitas Pvt Ltd   Noida, Uttar Pradesh, India
Jr. Node JS Developer (Intern)   *Oct 2022– June 2023*

Worked independently under watch of senior developer to deliver MEAN stack application

- Worked on Clojbug, Web3reviewer projects
- Creating and Implementing Designs for FrontEnd using Angular.
- Creating Backend using Node Js and Express Js For Applications

Internship Experience

Frshr Technologies Pvt Ltd   Banglore, Karnataka, India
Backend Developer (Node Js)   *Oct 2021 – Oct 2022*

- Worked to build and deliver highly efficient projects on **Blockchain Technologies.**
- **Created project oriented on NFT Marketplace(**NftIndya**) and Tokenization systems over hedera Blockchain.**
- Designed and deployed APIs for NFT marketplace operations within the Hedera blockchain, enabling faster transaction times and reducing onboarding time for new clients by 50%, enhancing overall customer satisfaction.
- Created smart contract on Hedera Blockchain.

EDUCATION & OTHER

Guru Gobind Singh Indraprastha University   **June** *2023*
B.Tech Computer Science and Engineering (**GPA: 8.9**)

LANGUAGES: English (fluent), Hindi (Native)
OTHER: Ntf India got placed in the Top 3 in Paint the future startups
